

2 in 3 Australians will get skin cancer by age 70.

But it's one of the most
preventable cancers.

43%

rarely or never
check the UV index

26%

have never had
a skin check

80%

don't know the
SCAN method

Skin cancer is common. Protect your skin
every day. Check it every month.

Check UV index daily in your weather app.

Use protection when UV is 3+

Self-check monthly with the SCAN method
